Action taken by: Paul L. Gretch, Director
Office of International Aviation

XX **The authority granted is consistent with the aviation agreement between the United States and Mexico.**

Except to the extent exempted or waived, this authority is subject to the terms, conditions, and limitations indicated: **XX** **American's certificates of public convenience and necessity**

XX **Mexicana's foreign air carrier permit**

XX **Standard exemption conditions (attached)**

Conditions: The U.S.-Mexico exemption authority granted to American is subject to the dormancy notice requirements set forth in condition 7 of Appendix A of Order 88-10-2. Consistent with our policy, the dormancy notice period will begin on August 1, 2004, the proposed start-up date for the Chicago-San Luis Potosi service. The exemption authority granted to American and Mexicana is limited to services provided on a code-share basis only.

The route integration authority granted to American is subject to the condition that any service provided under this authority shall be consistent with the applicable bilateral aviation agreements between the United States and the foreign countries involved. Furthermore, (a) nothing in the award of the route integration authority granted should be construed as conferring upon American rights (including code-share, fifth-freedom intermediate and/or beyond rights) to serve markets where U.S. carrier entry is limited unless American notifies the Department of their intent to serve such a market and unless and until the Department has completed any necessary carrier selection procedures to determine which carrier(s) should be authorized to exercise such rights; and (b) should

⁴ American Eagle holds the underlying route authority to operate the proposed code-share services. (See Notices of Action Taken dated April 30, 2004, in Docket OST 2004-17469 for Dallas/Ft. Worth-Torreon and June 25, 2004, in Docket OST-2004-18042 for Dallas/Ft. Worth-Chihuahua.)

there be a request by any carrier to use the limited-entry route rights that are included in American's authority by virtue of the route integration authority granted here, but that are not then being used by American, the holding of such authority will not be considered as providing any preference for American in a competitive carrier selection proceeding to determine which carrier(s) should be entitled to use the authority at issue.

The statements of authorization granted are subject to the following conditions:

- (a) The statements of authorization will remain in effect only as long as (i) the subject U.S. carriers and the subject Mexican-flag carrier continue to hold the necessary underlying authority to operate the code-share services at issue, and (ii) the code-share agreement providing for the code-share operations remains in effect.
- (b) The subject U.S. carriers and/or the subject Mexican-flag carrier must promptly notify the Department (Office of International Aviation) if the code-share agreement providing for the code-share operations is no longer effective or if the carriers decide to cease operating all or a portion of the approved code-share services. Such notices should be filed in Docket OST-2004-16945.⁴
- (c) The code-sharing conducted under this authority must comply with Part 257 and with any amendments to the Department's regulations concerning code-share arrangements that may be adopted. Notwithstanding any provisions in the contract between the carriers, our approval here is expressly conditioned upon the requirements that the subject foreign air transportation be sold in the name of the carrier holding out such service in the computer reservation systems and elsewhere; that the carrier selling such transportation (*i.e.*, the carrier shown on the ticket) accept responsibility for the entirety of the code-share journey for all obligations established in its contract of carriage with the passenger; and that the passenger liability of the operating carrier be unaffected. Further, the operating carrier shall not permit the code of its U.S. air carrier code-sharing partner to be carried on any flights that enter, depart, or transit the airspace of any area for whose airspace the Federal Aviation Administration has issued a flight prohibition.
- (d) The authority granted here is specifically conditioned so that neither the subject U.S. carriers nor the subject Mexican-flag carrier shall give any force or effect to any contractual provisions between themselves that are contrary to these conditions.
- (e) The carriers will comply with section 4.4 of the code-share agreement as amended March 16, 2004, which was submitted to the Department on that date.

On the basis of data officially noticeable under Rule 24(g) of the Department's regulations, we found the applicants qualified to provide the services authorized.

Under authority assigned by the Department in its regulations, 14 CFR Part 385, we found that (1) our action was consistent with Department policy; (2) grant of the authority was consistent with the public interest; and (3) grant of the authority would not constitute a major regulatory action under the Energy Policy and Conservation Act of 1975. To the extent not granted, we denied all requests in the referenced Docket. We may amend, modify, or revoke the authority granted in this Notice at any time without hearing at our discretion.

Persons entitled to petition the Department for review of the action set forth in this Notice under the Department's regulations, 14 CFR §385.30, may file their petitions within seven (7) days after the date of issuance of this Notice. This action was effective when taken, and the filing of a petition for review will not alter such effectiveness.
